Abbid Said With Huge
Knife And Gun
Feigns Lunacy

HAUNTED
THE SWAMPS

Until Sheriff Cleaned Him
Out--Brought To
This City

Armed with a huge knife, a loaded
revolver and the glaring look of a
maniac Abbid Said, a Syrian of the
north side colony, created a reign of
error in the Tamarack region east of
here and had it not been for the ar-
rival of Marrot Tarrak, another La
Crosse Syrian peddler Said would
have been in irons in the Whitehall
pail.

A week ago Said was first noticed
in the Tamarack region. He devoted
the days to sleeping in barns and hay
stacks and at night prowled about the
home of the farmers exhibiting his
weapons and threatening the inhabi-
tants. He frequently slept in a school
house and the children of the neigh-
borhood were so frightened that
classes were impossible.

Yesterday complaint was made to
the sheriff and upon the arrival of the
Whitehall deputy at Tamarack swamp
Said was found in a barn. He talked
rational, but claimed he was sick. As
the officers were searching Said a
countryman of the latter named Mar-
rot Tarrak drove up, who was evi-
dently a peddler, and claimed to know
Said, saying that he lived in La Crosse
and had a wife and four children here.
Tarrak promised to get Said out of
the Tamarack section at once if the
officers would free him which the au-
thorities consented to do.

COUNCIL TO
RECONSIDER

Will Save the City About
\$150--Special Meeting
This Evening

At a late hour this afternoon
the mayor issued a call for a
special meeting to be held to-
morrow evening for the purpose
of considering the Farson, Leach
& Co. bonds.

A special representative of the con-
cern arrived here last night, hav-
ing left Chicago as soon as he learned
that there was danger of losing the
bonds. He has been at the city hall
the entire day in consultation with the
city attorney and city officials, at-
tempting to get a reconsideration of
the council's action of last night, so
that his firm may purchase the high
school and street improvement bonds
and also the disputed fire station and
fire engine bonds after certain changes
have been made in their form.

At the city hall the action of the
firm of Farson, Leach and company
is looked upon as a trick to get time
in which to dispose of the bonds.
The agent who is here is reported to
have said that his concern has already
made contracts for selling the
bonds again and the action of the city
last night will greatly embarrass
them.

City officials look at the matter in
a different light, however, and it is
very probable that no reconsideration
will be given as in looking up the
firm's record in previous sales of
bonds, the comptroller finds that they
have played tricks in previous years.
In 1901 the same firm purchased the
\$12,000 water refunding 20 year
bonds bearing interest at 3 1/2 per cent.
They paid a premium of \$67.50. Af-
ter the bonds had been forwarded and
in their possession for several days
they notified city officials that they
would like to have them changed
from 20 to 10 years at the same rate
of interest claiming that this was what
they had figured. When the council
refused to make the desired change
the firm refused to accept the bonds
and they were sold by the city to the
La Crosse National bank after consid-
erable trouble, and loss to the city.

The representative who is here to-
day denies that any tightness of the
money market or other reasons given
out here this morning has anything to
do with the refusal of his firm to ac-
cept the bonds, but states that as soon
as they are drawn in the proper
shape his firm will be very willing to
accept them according to the former
bid.

City Clerk Joseph M. Sieger said to-
day that the reconsideration of the
action of the council last evening
would save the city the difference of
the bid, about \$150, and also about a
month's time in getting the money,
and for this reason the council may
at their special meeting reconsid-
er the bond question. It may give
them to the original bidders after or-
dering the changes in the engine
houses bonds requested by the Chi-
cago bidders.

3 INJURED
IN CRASH

Ex-Alderman Allen, Wife and Daugh-
ter Hurled From Buggy in
Collision With Street Car

Frank Allen, proprietor of the Al-
len house on the north side, and for-
mer alderman, his wife and daughter,
Miss Sadie Allen, last night had a
narrow escape from death at the cor-
ner of Third and Zeisler streets, when
their buggy was struck by a rapidly
moving street car.

Mr. Allen drove onto Third street at
its junction with Second and the
horse had already crossed the track
when the car struck the rear of the
buggy. The rig was hurled against a
telephone pole in front of Preutz's
grocery store and Mr. Allen was
caught beneath the vehicle. He re-
ceived a deep gash on the head and a
sprained knee, ankle and wrist. He
clung to the reins, however, and
brought the horse to an immediate
stop, thus probably saving the life of
his wife. Mr. Allen is today confin-
ed to his bed under medical attention.

When the crash came Mrs. Allen
was also thrown, but her feet caught
in the buggy box. She was held fast
with her head hanging close to the
horses' hoofs. It is stated by Mr.
Allen that she would have been in-
stantly killed had the animal run
away. She received several scratches
but was not seriously hurt.

Miss Sadie Allen, aged 17 years,
the daughter, was thrown from the
buggy and received a wound several
inches long in the right hip. She
is not seriously injured, however.

When seen by the Tribune reporter
today Mr. Allen said that the ac-
cident was unavoidable and that he did
not hold the street car motorman re-
sponsible in any way. The car was
going at a good rate of speed, but no
faster than is customary at this point.
He also declares that the motorman
made every possible effort to stop the
car before it struck the vehicle.

LITIGATION OVER ANCIENT PROPERTY

REMAINS OF OUTER CIRCLE OF GREAT PIERS AT STONEHENGE, ENGL.

FROM THE SPHERE

TWO HIGH ROADS NEAR STONEHENGE.

A case of public importance, involving the question of the right of the public to free access to Stonehenge circles, came before the famous Chancery Division of the High Court of Justice in England last month. The hearing of the action has since been continued. The defendant, Sir Edmund Antrobus, who is owner of the soil, erected in 1901 fences in such a way as to obstruct at five points roads which the plaintiffs say are right of way, and has made a charge for admission to see the monument. The attorney general, at the instance of five gentlemen, sought an order that the defendant remove the fences where they obstruct the alleged rights of way and an injunction to

restrain him from erecting any other fence or obstruction.

SECRETARY TAFT TO BE GUEST OF MIKADO

Washington, June 23.—Final arrangements for the trip of Secretary Taft's Philippine party of congressmen and other public officials includes a stay of three days with the mikado of Japan. When the trip was planned it was the intention to cut out this visit to the mikado, but his invitation was so hearty and pressing that Secretary Taft changed his mind. The start will be made from Washington at 5:30 p. m. June 30. The party will remain in Chicago two hours, leaving there at 7:30 p. m. July 1.

The train will arrive at San Francisco July 5, where three days will be spent before sailing. The outgoing trip will be on the steamer Manchuria. The date of arrival at Yokohama is about July 26. There the party will leave the steamer and embark on the royal yachts of the mikado and go to Tokyo for a three days' visit at the palace. There will be fetes and entertainments on a lavish scale at the Japanese capital.

Circuses Can Come Cheap

La Crosse will hereafter have a low license for circuses, street shows, etc.

This is the decision of the council last evening. In spite of the opposition of Alderman Hirschheimer, a minority measure was passed reducing the license fees. Circuses will now be reduced from \$150 to \$10 for the first day.

The matter of a new causeway to the north side is now in the hands of the committee on special street improvements. Alderman Schultze of the north side last evening read the petition of the La Crosse Rubber mills wherein they agreed to materially increase their plant and double their working force if this causeway is constructed. The matter is favorably looked upon by the council.

Want Cars Extended.

The La Crosse street railway company was requested by Mayor Torrance on resolution of the council, to extend its lines from Sixteenth and Market streets to the Catholic cemetery.

The council last night passed the "bad water investigation bills" of Prof. Floyd Davis. The bills were allowed for \$1,600.

The board of public works was granted permission to do the work of laying the water extension of one block on Front street and one block on the north side without the formal advertising for bids. The work will be supervised by the city engineer.

The C. B. & Q. road was authorized to lay a spur track across Sill street on the north side.

A bill of \$300 for surety company bonds for the city officials was received and referred.

The report on the petition concerning the enforcement of the wide tire ordinance, brought up an interesting discussion, the gist of which was that any one who did not like the way it is being enforced can himself play policeman and swear out warrants against offenders.

Hunting For Guerrillas' Gold.

In 1864 James Reynolds, a Confederate captain, became leader of a guerrilla band similar to Quantrell's, says a Denver dispatch. The gang held up and robbed what was called the Buckskin coach on the old South Park trail near Denver and secured \$40,000. Its members were attacked on the following day. One man was killed, and Captain Reynolds and five of his men were captured. But two escaped, and they, it is said, buried the treasure at a point near the scene of the battle and were never afterward able to find it. Several searching parties have recently left Denver and will attempt to locate this treasure.

Color Change in German Army.

The authorities of the German army have decided to alter the color of the military uniform, says the London Standard. The dark blue color is to be discarded as used for service in the field, and a cloudy gray shade has been chosen. Three battalions of the German army are already supplied with the new uniforms. In shape the trousers are to remain as before, and the caps and helmets will not be changed. The tunics, however, are to be looser in the waist.

Well of Pure Oil.

Great excitement prevails at Rowburg, Perry township, O., over the discovery of oil in a well on the property of S. Hohenstul. A most peculiar fact connected with the discovery is that the oil is practically as clear when taken from the well as kerosene oil. To all intents and purposes it is refined oil and when placed in a lamp burns as well as the best quality.

BIG BATTLE NOT BEGUN

Gunshu Pass, Manchuria, June 23.—The operations of the Japanese during the last five days which at first were thought to be portentous, apparently ended after the last fight. The Japanese appear to be merely clearing their immediate front. There is now no reason for any further delay in beginning the great battle, as the opposing armies are essentially equal.

The Russian troops are under the impression that an advance is about to begin. Correspondents are not allowed to refer to the sentiments of the army concerning the peace proposals. The heads of the various armies have adopted a bellicose attitude, especially since the opening of peace negotiations were reported here.

CARL SCHURZ AFTER UNCLE SAMUEL

Madison, Wis., June 23.—The commencement day address at the University of Wisconsin was delivered by Hon. Carl Schurz, of New York. He said in part: "This republic should stand as the gentleman par excellence among nations; a gentleman scornful of the role of swashbuckler, whose hip-pockets bulge with loaded sixshooters and who flashes big diamonds on his fingers and shirt front; a gentleman modest in the consciousness of strength, carrying justice, forbearance, and conciliation on his tongue, and benevolence in his hand, rather than a chip on his shoulder. If this republic is to endure and to be successful in its highest mission it must put its trust rather in schools than in battleships."

President Van Hise in an address severely scored "tainted fortunes," and deplored the up-building of universities by such means. The degree of doctor of laws was conferred on Carl Schurz; Justices J. B. Cassidy and R. D. Marshall, of the Wisconsin supreme court; Professor Werner Spalteholz, of Germany, and ex-President John Bascom, of the University of Wisconsin. There were 428 in the graduating class.

"BUINE"

HAD A REMARKABLE ESCAPE

Nelsonville, O., June 23.—Joe Keich, employed at a pharmacy here, had a remarkable escape from death, which physicians declare was almost unheard of in medical circles. In removing a bottle of concentrated nitrous ether from a shelf he slipped and fell, and the bottle becoming unhooked, he inhaled a large quantity of the deadly fumes before aid could reach him.

Six physicians worked with him for five hours, using every heroic treatment known to medical science, and it is thought he will recover. The inhalation of nitrous ether is quoted in drug circles as absolutely fatal.

ANOTHER STEAL IS DISCOVERED

Muskogee, I. T., June 23.—It is alleged that a steal in connection with the payment of Chickasaw warrants has been discovered which will rival the famous Creek warrant steal and may involve a fugitive banker of Tishomingo and others. The amount stolen cannot be determined at present, but it is between \$100,000 and \$200,000. This sum represents Chickasaw school warrants that were paid, and afterward, it is said, floated again.

One firm in St. Louis, it is understood, has about \$60,000 worth of these warrants, and some of them are known to have come through a combination of which Kirby Purdon, the absconding banker of Tishomingo, was said to be the leading spirit. A large number of these warrants are thought to be fraudulent. The grand jury is making an investigation.

UNIVERSALISTS COMPLETE PROGRAM FOR CONVENTION

Big State Church Meeting Opens in This City Monday, June 16, Closing Thursday Eve.

The complete program for the State Universalist church convention to be held in this city June 26 to 29th has been completed by Rev. J. S. Lowe of the First Universalist church of this city.

Meeting Important.

The convention is one of considerable importance to the Universalists of the state. The sessions are to be held in the local Universalist church. Rev. Lowe said today when seen by a reporter that a large number of the speakers had been brought from out of the city and that he expected the convention to greatly strengthen the Universalist organization in the state. The program includes the work of the various subordinate conventions which will be held at the same time and is, in full, as follows:

Monday Evening, June 26.

Automobile and carriages convey delegates and visitors from trains to church, where supper will be served. 8:00 p. m. Illustrated Lecture—"Pilgrimage to the Homes of Abraham Lincoln," Rev. A. C. Grier, Racine.

The Dynamo of the American People

We are a race of workers.
Work requires brain, nerve, energy.
We glory in achievement.
To work and work with might and main, good food is absolutely essential.

Although nearly every one eats soda crackers sometime, yet there are a few people who do not consider their true value as an article of daily food. But it is now a recognized and established fact that the soda cracker contains the most tissue, fat and muscle forming elements of any article of food made from flour.

Great as is the value of the common soda cracker, yet it is small in comparison to **Uneeda Biscuit**—the most wonderful soda cracker ever baked, and of which nearly 400,000,000 packages have been sold.

Uneeda Biscuit, the food of power, transmitting as they do the elements so vital to our well-being, may in very truth be called "The Dynamo of the American People."

MYSTERIOUS PEOPLE.

The Awesome Importance and Secretive Air They Affect.

Many people assume certain manners as they assume certain clothes and change these manners more seldom than they change their clothes. Some think it ingratiating to be perky. Others think it more graceful to be drooping and melancholy, to gaze wistfully, walk mournfully and sit as if before the baked meats of a funeral feast. But of all the people who indulge in travesty I think I get most amusement out of the mysterious people.

Bated, forever bated, is the breath of the mysterious person. Directly he comes into the room you are conscious of the presence of the unutterable and know that it will speedily be uttered into your most private ear. When he speaks to you he "takes you aside," so that none other may know that he is telling you that the weather is damp and that there is a deal of influenza about. As he discusses with you such dreadful subjects as the price of hobnailed boots, the fluctuations of stocks and the economies of the administration his head approaches yours, his lips pout secretively, his eyes glance round warily to make sure that no one is within earshot to betray him and you. The galleys is surely in his memory. He wishes to avoid it; he wishes—kindly wretch—to save you from it all. Meet him halfway. It is such fun to do that. He responds sensitively to the slightest mysterious encouragement.

TOMBSTONES ON A CAMPUS.

How Fraternity Haters at a Kansas University "Got Even."

The Biblical society at Baker university, Baldwin, Kan., until a few weeks ago had a clause in its constitution forbidding its members to join any national fraternity, says the Kansas City Star. When the clause was voted out after a warm debate there were many in the society who believed that it marked the passing of the society.

The Athenian society there has never put a ban on a fraternity, and a number of its members belong to secret organizations. Recently a third society was organized with the understanding that none of its members should join the "frats." Shortly after, however, one, Browne by name, yielded to temptation and joined one of them in spite of the objection of his Promethean brothers in the new society.

The next morning when the students assembled for chapel services three rude tombstones were found erected in the campus in front of Centenary hall. They had been put up by some of the fraternity haters. One of them was inscribed: "Athenian Society. Died of Frat-oid." The second one read: "Biblical Society. Busted." The third bore the words: "Promethean Society. Died of Brownchitis."

Case of Too Much Love.

Chicago, July 23.—Mrs. Bruner, the Waukegan nurse who shot herself while in Jackson park, is dead. The cause of her suicide was disappointment because Clarence O. Steele, a young man with whom she was in love, had refused to marry her because of the difference in their ages, Mrs. Bruner being eight years older than Steele.

Dr. Bonn—Yes.
Tommy—Great Scott! You sent back word by our servant to say you wouldn't be long!

"I tink he's goin' fer er bone he's done buried somewhere."

The Bird—And did your mother not tell you that the birds eat the early worms?
The Worm—Oh, no, sir!
The Bird—Well, I am sorry, but you really can't blame me for omissions on the part of your parents.—New York World.

AMERICA TO ENGLAND.

[Poem read by the Rev. Dr. Minot J. Savage at the Lotus club dinner recently given in New York as a farewell to Whitelaw Reid, United States ambassador to England.]

The youngest of the nations,
Grown sturvier in the west,
Years back to where each morning
Gleams o'er the ocean's crest
And cries, "O mother country,
Ours is your ancient pride,
And, whatever may befall you,
Our place is at your side!"

Ours are the old traditions
Of Saxon and of Celt;
We visit rare Westminster
And kneel where you have knelt.
Your restful country places,
Hills, lakes and London town—
Their memories we inherit
And share in their renown.

Your Aven is our Aven;
Song knows no border line;
The stars their radiance mingle
Which in one heaven shine.
Within your "Poet's Corner"
Lords of the gentle grace
With all the august shadows
Is given a welcome place.

Your mighty men of science
Who've made the world anew,
Transforming earth and heaven,
Wrought not alone for you.
From Newton up to Darwin
Each from his truth built throne
Keds greeting to our homage—
We claim them for our own.

You fought the fight for freedom
And taught mankind the creed;
Long ere our "Declaration"
There was a Runnymede.
But you had won before;
Our Bunker Hill and Yorktown
Look back to Marston Moor.

Our Washington and Lincoln
Were of your sturdy stock,
Cut out of Milton's quarry.
One piece with Cromwell's rock.
May our plumes leaven the lessons
That English means the free,
And through the wintry weather
They brought it over sea.

Here in the west grown mighty,
Though we alone might win,
We look back to the home land
And feel the thrust of kin.
Then let us stand together
Till over all the earth
Our manhood and our freedom
In every land have birth.

One vision let us cherish—
That as the years increase
We may teach the nations
To love and welcome peace.
But, should the war cloud gather
O'er Neva or the Rhine
And should the threatening navies
Wheel into silent line,

Then, when the peaceful heavens
Are darkened in eclipse,
May our two lightning signals
One thunder from our ships.
We need but stand together
To hold the world in fee
And to the noblest issues
Control the age to be.

Then let this glorious vision
Along our pathway gleam
As up the future leads us
To love and welcome peace.
The seer's, the poet's dream.
One race and one tradition,
English, American,
And one high inspiration—
The destiny of man!

CONDUITS AND RUBBER HOSE.

The Old Man has developed a comical anxiety over the beautiful streets of Our Beautiful City, because the Wisconsin Light & Power Company proposes to comply with the city ordinance and put its wires underground.

It does not seem long ago—as time goes—that the illustrious Electro-Magnate editor was fighting a brave battle to force the La Crosse Gas & Electric company to go underground, under the same beautiful brick paved streets for the safety of which he now fears. But that was, according to recollection, before the notorious "lease" of the Central Electric had been concluded while HE who had "killed two or three men and spattered blood all over one county" with his "fiery southern temper" was doing the hammering that made that celebrated business manipulation possible.

The new lighting company is going underground. The work will undoubtedly be done without injury to the streets. Nor will tunneling be necessary to accomplish this. The new concern will go underground with the most approved conduits, and no attempt will be made by them to bury their wires in common canvas covered rubber hose.

To the disinterested observer the silly attempts of the two light trust papers to throw stones in the path of the new lighting company must appear as exceedingly ridiculous. It is funny, very funny, that the old Light company, through its organs, should be so solicitous, at this time, to fight for "God's patient poor," the same patient common people who have been "walking up to the Captain's office and skinning their weasel" for a couple of years and who were once authorized to take out the trust light if they didn't like it. But then, it may be presumed in charity that the "ring" has undergone a change of heart, that they see, at last, their faults, and are determined to give the common people their just dues.

A couple of years ago The Chronicle fought against placing the wires of the La Crosse Gas & Electric Company underground, but that was to save the Light Company the expense, and not to save the beautiful streets.

It is true that La Crosse has beautiful streets—streets far above the average—and every precaution should be taken in tearing them up for underground work. Every precaution will be taken, however, and it is the duty of the city engineer to see to it that they are replaced in "as good condition as before."

Meanwhile it is to be expected that the Morning Chronicle and the Leader-Press, the two organs of the old lighting company, will scream in wild alarm in their ridiculous efforts to hamper the work of the new competing lighting company.

But both of these papers have passed the stage of "moulding public opinion" and what they say concerning it will be taken with a large dose of salt; especially when their selfish design is so obvious.

A "BIG STICK" EPISODE.

Minister Bowen's dismissal from the diplomatic service has not quieted him. He says that he is convinced that Loomis is a rascal and that his only purpose has been to bring him to justice and free the diplomatic service from taint. He charges the Roosevelt administration with having tried to bribe him into silence by dangling before his eyes an ambassadorship immediately he reported to the state department the nature of the charges against the assistant secretary of state, a promotion that he declined.

Whatever may have been Mr. Bowen's motives, no reflection is cast upon associates are involved, the law must go by the board. He will have none of it. The president's offense is the more flagrant in that he assumes that the American people are incapable of seeing through his jugglery with justice, and his laudation of Morton becomes positively sickening. It is not the first time that Mr. Roosevelt has shown himself to be utterly lacking in judicial temperament or exactness of statement. Words appear to be at his command merely to lend exaggeration and obscure facts. His inability to recognize facts has placed him in embarrassing positions before, but the part that he has played in the Santa Fe rebate case has made it impossible to take him seriously. The "square deal" is a phrase and the Roosevelt of the popular imagination a myth.—Milwaukee News.

Oyama don't seem to know the war is over.

Yes, dear wife and mother, "won't you let us have your money?"

All the fans are betting on "Pink" Hawley and his team, for they shall win.

It will be with genuine regret that the business world learns of the retirement of S. Y. Hyde.

NEW YORK JANITOR GETS A JAG AND KEEPS 'EM WARM

HOT WATER HEATING APPARATUS TURNED ON FULL FORCE

Tenants Get a Turkish Bath When Unexpected

New York, June 23.—While this city swelters in torrid heat a janitor has been adding to the discomfort of many by making steam heat for a flat building as it was never known there in the coldest zero weather. They call the place the parolled flats, although its real estate name is the Cameron apartments. It is situated at St. Nicholas avenue and One Hundred and Twenty-sixth street. Radiators sizzled and geysers burst out through safety valves. The flat dwellers rolled out of bed in wreaths of scalding vapor. All the house was in an uproar and at least ten persons feared they were being boiled alive.

Appeal Made to the Police.

Several put their heads out of the windows and called for help. Clouds of steam filled the halls and the pipes in the partitions and shafts thumped and wheezed. Some of the tenants, who did not realize that the heat was being turned on more than it had ever been on the coldest winter day, scented a siren and sat by the open windows panting for breath. Two or three who stepped in the flood of hot water from the radiators whistled down stairs and got no response. Another telephoned to the police that there was something wrong with the Cameron and asked for help.

Wasn't Going to Let Them Freeze.

Sergeant Fitzgerald, of the West One Hundred and Twenty-fifth street station, sent Policeman Grace to investigate. In the cellar he found the janitor walking up and down, talking to himself. His gait was unsteady and he seemed to be under such mental stress that his utterance was unusually thick even for an apartment house engineer. "So they wanted heat, did they?" he muttered. "Wanted heat? All of them been coming down this winter saying they were freezing to death. They get heat now. Fifty families in the house and none freeze as long as I run things."

He Turned It on Hotter.

"What do you think you are doing?" said Grace. "This isn't a Turkish bath. Cut it off. The janitor did things to a few valves and in a minute tenants began running out of various refugees, saying that they could not stand it any longer, for the place was getting hotter and hotter every minute. 'You're turning on more,' said the policeman. 'I've a mind to warn you up with this club.' Jeremiah Barry, the superintendent of the building, was called.

Two Much Boozed Aboard.

"Let him alone, for the love of heaven," said he. "He will blow himself up. Say, what has become of the water gauge?" The policeman retreated up the stairs. The superintendent telephoned to the tenants to turn on the hot water at every faucet in sight. "If you don't," he added, "the boiler will be up through the roof in about a minute." McMillan was arrested on the charge of intoxication and taken to a cool cell.

SCORES ON THE BALL FIELDS

Seems too bad to have Hoch's execution delayed, when the newspapers all over the country have the story of the hanging set up in advance.

The project undertaken by the young women of the Y. W. C. A. to secure a new home is a worthy one, and one that will gain undivided local support.

From recent mutterings it would seem that Governor La Follette is about to have thrust upon him the support of a once boisterously democratic local editor. Wonder why?

CONDENSED TELEGRAMS

Child Labor at Jackson.
Jackson, Mich., June 23.—Miss Luella Burton, state factory inspector, says child labor conditions are worse in Jackson than elsewhere in Michigan. She adds, however, that there is no larger percentage of children under 14 years of age at work, but a larger number of them are at work without a permit issued by the bureau of labor or a notary public. Miss Burton congratulates Jackson on being comparatively free from foreign labor.

Will Fight the Eight-Hour Day.
Chicago, June 23.—Refusal to agree to an eight-hour day has been made by the Chicago Typographical union. The employers threaten a rupture of relations if the union persists in its efforts to stop an hour off the day's work. The Typographical union declares that business cannot be run with profit by paying the present wage scale and receiving eight hours' work in compensation.

The Bookery at Milwaukee.
Milwaukee, June 23.—The Journal prints an interview with Register of Deeds Otto Seidel, Jr., in which he states that he will tell the grand jury about every bookie deal in which members of the county board have participated for the past six years. "Deals" involving between \$14,000 and \$20,000, he says, will be laid bare.

Myles Was on a High Lonesome.
Royal Oak, Mich., June 23.—H. V. Myles, traveling agent for a safe manufacturer, and claiming to hail from Detroit, created a sensation by driving his horse and buggy into the saloon of Gus Dondero, on Main street, tearing down the door jamb. Myles then fled and escaped on a Romeo car.

Heavy Fall of Rain.
Bicknell, Ind., June 23.—The heaviest rain fall here in six years fell between 3 and 4 o'clock Tuesday afternoon. It is estimated that four inches of water fell.

Death Wins This Race.
Akron, O., June 23.—J. A. Bradley, killed in the Lake Shore limited wreck, was one of the most prominent attorneys of this city, being a member of the law firm of Rogers, Rowley, Bradley & Rockwell. His dying wish was that he might see his wife before death. A special trolley car was placed at her service and Mrs. Bradley started for Cleveland. She reached the hospital half an hour after her husband had died.

Commencement at Michigan University.
Ann Arbor, Mich., June 23.—At the sixty-first annual commencement of the University of Michigan degrees were conferred on 776 graduate students, divided as follows among the different departments: Literary, 340; engineering, 89; medical, 61; law, 217; pharmacy, 21; dental, 36; homeopathic medical, 12.

Diabolical Crime in Kansas.
Pittsburg, June 23.—An unknown man called W. R. Scott, a lumber merchant, to the latter's door here and threw a pint of carbolic acid into his face. Scott was burned terribly about the face, neck and shoulders. He may live, but probably will be blind. The assailant escaped.

New Nebraska Law Knocked Out.
Lincoln, Neb., June 23.—The biennial election law, passed by the last Nebraska legislature and designed to do away with "off-year" elections, has been declared unconstitutional by the supreme court of this state. All elections will be held this fall as heretofore.

Will End in Five Deaths.
Atlanta, Ga., June 23.—A boiler at the sawmill of the Curtis Atlanta lumber plant exploded, killing James Watts, Will Rosson, Gus Cash, and Marion Maddox. C. Smith was fatally hurt and Barney Works seriously injured.

Cheap Enough, at That.
Sioux City, Ia., June 23.—John Perrine and N. J. Randall, of the Denver Western League, were fined \$10 each in the police court for assaulting Umpire Schugter during a game.

18-HOUR TRAIN IS RETURNED TO 20-HOUR SCHEDULE

WRECK ONE OF THE WORST IN HISTORY

New York, June 23.—The Twentieth Century limited on the New York Central-Lake Shore line has been restored to a twenty-hour schedule instead of the eighteen-hour schedule.

Cleveland, June 23.—The list of fatalities in Wednesday night's wreck of the Twentieth Century flyer on the Lake Shore at Mentor, O., is one of the largest in the history of that road, numbering nineteen persons. All the victims were prominent in the business and professional world in New York, Chicago, Cleveland and other cities. The official list of the dead and injured, as compiled by the officials of the Lake Shore company, is as follows:

Two Dead Yet Unidentified.

The dead: Passengers—John R. Bennett, attorney, New York city; John A. Bradley, of the law firm of Rowley, Rogers, Bradley & Rockwell, Akron, O.; T. R. Morgan, second vice president of the Wellman-Seavers-Morgan company, Cleveland; C. H. Wellman, of the Wellman-Seavers-Morgan company, Cleveland; A. L. Rogers, of New York city, representative of the Platt Iron works, of Dayton, O.; S. C. Beckwith, New York city; A. H. Head, London, England, representative of the Otis Steel company, of Cleveland; H. H. Wright, traveling man, Chicago; D. E. Arthur, traveling man, Milwaukee; J. H. Gibson, Chicago, traveling man; H. C. Meehling, New York city; L. M. Elrick, manager Keith's theater, Cleveland; E. E. Nangle, Chicago, proprietor of a railway supply house; two as yet unidentified dead, supposed to be L. A. Johnson, of the millinery firm of Comey & Johnson, Cleveland, and Henry Trinz, the barber on the train. Employees—Allan Tyler, engineer, Collinwood, O.; F. J. Brant, head brakeman, Erie, Pa.; N. B. Walters, baggage man, Hamburg, N. Y.; W. D. Mickey, porter on Pullman car, Chicago.

Twelve Persons Were Injured.

Injured: Passengers—J. H. Langdon, Chicago; R. C. Cordaugh, Highlands, N. J.; M. J. Kennedy, San Francisco, slightly hurt; Kate Trott, Chicago; S. H. D. Turner, nervous shock; Theodore Kuhl, Chicago, severe shock; W. H. Colvin, Chicago; George Murray, St. Louis; A. E. Dickinson, Chicago, knee wrenched; Nathan Allen, Kenosha, Wis., back slightly injured; S. T. Katy, Chicago, in chest and back. Employees—A. P. Gorham, fireman, side injured, Collinwood, O.

CAUSE IS STILL IN DOUBT

Switch Is in Perfect Order—Was It a Mistake as to Lights?
As to who is responsible for the open switch which was the cause of the wreck the railroad officials are still uncertain. They believe that the wreck is the result of either a maniac who wanted to see a wreck of such a fast train or some person bent upon revenge. A careful examination of the switch shows that it was in perfect condition. Detectives are working on the case. Trainmen are of the opinion that the crew of the Twentieth Century was deceived by a second white light 100 feet beyond the switch which was open, but while traveling at such fast speed were unable to gauge the distance and mistook the second light for the first one.

W. H. Marshall, general manager of the Lake Shore, believes the speed of the train was not a contributory cause to the wreck. He said that other Lake Shore trains travel through Mentor at a speed equal to that attained by the Twentieth Century Wednesday night, which was not, Marshall said, above the rate of sixty miles an hour. The schedule for the train called for a speed of fifty-seven miles an hour at that point. The wreck had no effect on the sale of tickets for the same train last night, the full quota allotted to this city having been sold long before the time of the train's departure.

New York, June 23.—Seventeen of the passengers who were on board the train wrecked have arrived here. The party, all of whom escaped serious injuries, included: William P. Daniels, New York; H. J. Kennedy, San Francisco; C. L. Pickard, Chicago; S. T. Kalz, Chicago; William Barelay Parsons, New York; Houston Lowe, wife and two daughters, Dayton, O.; W. Beal, New Orleans, Mrs. H. G. Tierney and Miss E. Tierney, Columbus, O.; Mrs. Insull, Miss E. Bird Insull and Samuel Insull, Jr., Kenilworth, Ill.; Miss Anna Kings Mills, Kenilworth, Ill., and Miss K. Pratt, Columbus, O.

IF STANDARD OIL WORK- ED YOU, WOULD YOU BITE?

Light Trust's Evening Organ Appeals to Tender Sympathies Through Unsuspecting Boys

Dear wife, dear mother, do you not wish to assist a poor little struggling lad to gain a prize? Is there not that tender emotion in your kind heart to which he may appeal for assistance in his boyish efforts?

If the Standard Oil trust should write a heart-appeal and seek to gain your sympathy through an innocent child, to the enrichment of its dirty coffers, would you not be touched? Would you not gladly give the Standard Oil trust, through the innocent and unknowing boy, the last penny you possessed that the Magnates of that trust might grow fat and more arrogant?

Or would you laugh in ridicule and derision? If you knew that a cool calculating official of that peer of all commercial vampires was squeezing out your money by preying upon your tender sympathies, would you not admire the brain that conceived that noble idea? Or would you turn in scorn, or would you ridicule the "littleness" of it?

Well, in La Crosse there is an identical case, and you, dear wife and mother, are the intended victims.

For some time past citizens have gone to their door in the evening to find a copy of the Evening Organ. It comes again and again, and finally an appeal to the tender sympathies of the housewife is found tucked carefully between its small pages. This ap-

peal is written by the Old Man in the office of the Leader-Press and is carefully printed to imitate a typewritten letter. It is written as though coming from the boy-carrier and is signed, in a space left for that purpose, by the boy, who would undoubtedly feel ashamed of his part in the scheme were he to understand its meaning. It is addressed, in most instances, to the head of the house, but it is calculated to fall into the hands of the tender-hearted "better-half."

This appeal, which the little carrier boy had no part in framing, is as follows:

"Dear Sir:
"I want to deliver a copy of the Leader-Press at your door for a week, without charge. I am the regular carrier in this territory for the Leader-Press, and I am soliciting subscriptions—trying to gain one of the prizes offered by the publishers.

"The Leader-Press is the leading daily newspaper in La Crosse, has full Associated Press leased wire reports and complete local news. There's a continued story which is alone worth the price of subscription. Won't you let me have your order for at least 5 weeks? I will call on you at the end of the week for my answer. Thanking you in anticipation, I am
"Yours truly,
(Name of Carrier.)

Dear reader—don't you think it's pretty small? Don't you?

BOND TROUBLE COST THE CITY \$150 COLD CASH

Although Farson, Leach & Company, the buyers of the \$20,000 engine house bonds have given their grounds for refusing to accept them, City Attorney Paul W. Mahoney, says that it really is because of the tightening of the money market.

Farson, Leach & Co. have explained that the working of the bonds is such that they would not care to run the risk of keeping the bonds, particularly citing the passages which read "Not to exceed \$20,000" and "not to exceed 4 per cent." These passages they claim should be clearly defined.

Although the city attorney claims that he was at Chicago and attempted to explain the wording of his document to the big bonding house last evening he told the council that he

could not convince them of legality of the bond, and the Farson, Leach Co. decided that they would rather loose the entire amount of bonds, including the high school and street improvement bonds than accept the questionable paper.

After the matter had been generally discussed at the council meeting last night, the entire lot of bonds was sold to W. J. Hayes & Co., Cleveland, on recommendation of the city attorney who said that he had corresponded with them on the matter and felt assured that they would accept the paper as drawn.

The bond trouble cost the city \$150.

To Investigate Bird at Once

Announcement has been made by Alderman Winters of the special J. P. Bird investigation committee, appointed some time ago by the council, that the committee will hold its first meeting and begin its work next week. Owing to the absence of Alderman Bacheller who is at Clinton, Ia., it has been impossible to take up the work before. The investigation which will be thorough will be carried through as soon as possible.

ESCH RETURNS FROM TRIP EAST

Congressman John J. Esch arrived yesterday from West Point and other eastern points where as a member of the board of visitors to the U. S. Military Academy, he attended the commencement exercises.

Congressman Esch accompanied by his wife left La Crosse May 19th, going to Sparta, where he delivered a Memorial day oration. From here the journey eastward was made as rapidly as possible. No stops were made until West Point was reached.

On the return trip the congressman and his wife stopped at Albany and Syracuse, Buffalo, Chicago and Milwaukee.

We Have Made The Hit of Our Career!

With Our \$20 Double-breasted Blue Serge Suit. We knew when we bought these suits that we had secured a veritable prize assortment, and that they would actually sell themselves as soon as our customers saw them. But we had no idea that we would gain so many new customers among the young and middle-aged men who hitherto have been wedded to the high-priced-suit habit. This only goes to prove what we have said from the very beginning—that it will really pay you to look at these \$20 suits before you spend a higher price. And we feel justified in telling you again that for genuine style and proper, skilled workmanship our \$20 double-breasted serge has no rival at anything like the price. It has many new points and we heartily recommend it to every man who cares how he looks. We hope we have put this in strong enough form to assure a visit from you.

ATTORNEY GEN. PREPARES TO PROSECUTE SANTA FE

MORTON GOES FREE OF BLAME AND DISPUTE IS ENDED

Pres. Warmly Commends Former Head of Big Railway

Washington, June 23. — Attorney General Moody stated that he already had his legal machinery in motion to begin prosecutions against the Santa Fe railroad, for granting rebates to the Colorado Fuel and Iron company, and against the western roads which were enjoined from rebating in the International Harvester Co. case in Chicago. He stated that in all probability these actions for contempt of court injunctions would be begun in the federal courts of Chicago and Kansas City. Special counsel may be engaged in the Chicago suit. His action is in accordance with the order of the president.

SECRETARY MORTON. These actions for contempt of court injunctions would be begun in the federal courts of Chicago and Kansas City. Special counsel may be engaged in the Chicago suit. His action is in accordance with the order of the president.

President Defends Secretary Morton. The attack on Secretary Morton, of the navy department, has brought forth a vigorous defense of him from the

president, who in a letter to the secretary, relating to the charge that Morton, as vice president of the Santa Fe, was guilty of violation of the law, has declared unequivocally that Morton is entirely innocent of his official career as a cabinet officer, the president says: "You have shown yourself to be one of the most faithful and devoted public servants with whom it has ever been my good fortune to be connected."

No Prosecution of the Secretary. All of which means that Secretary Morton will not be prosecuted for violating the anti-rebate law while he was an official of the Atchison, Topeka and Santa Fe railroad. Neither will any of the general officers of that company. Because President Roosevelt declined to permit such prosecution, Judson Harmon and Frederick N. Judson, special counsel employed by the government to prosecute the Santa Fe company, withdrew from the case.

"Not a Shred of Evidence." President Roosevelt decided he could not proceed against Paul Morton and other Santa Fe officials because he said not a shred of evidence had been taken to prove that the general officers of the Santa Fe had guilty knowledge of the violation of the anti-rebate law. In reaching this decision President Roosevelt disapproved the recommendations of Harmon and Judson. The president favored prosecution of the corporation.

Where the Issue Was Joined. Harmon and Judson declared there was plenty of evidence. They declared that "no immunity from prosecution can be claimed for any officer by the company." In reply to a letter from Attorney General Moody favoring the prosecution of the corporation Harmon and Judson said that great corporations cannot be imprisoned and that punishment by fine is not only inadequate, but reaches the real culprits only lightly, if at all. The evils with which they were confronted, they said, were corporate in name, but individual in fact, and they stated epigrammatically that guilt is always personal. This difference of opinion ended in Harmon and Judson withdrawing from the case.

Strenuous Kansas Woman Defied the Officers

Wichita, Kan., June 23.—A posse of armed officers headed by Sheriff Schad has gone to Baynesville, fifteen miles south of Wichita, to capture Mrs. E. Roseberry, an elderly woman who has been keeping armed watch over the highway in front of her premises. She has disputed the right of rural mail carrier, John Gardner, to use the road as mail route, and fired at the carrier as he passed the house. Gardner notified the United States authorities, and a warrant was issued for the arrest of Mrs. Roseberry. She has entrenched herself in her dwelling.

ALFALFA BY IRRIGATION YELLOWSTONE VALLEY, MONTANA.

There are more than 60,000 acres of land watered by irrigation ditches and peculiarly adapted to the raising of alfalfa, for sale in the Yellowstone valley west of Billings, Mont.

The soil varies from gumbo to sandy loam, and alfalfa does well on all of it. The following figures show what alfalfa will do on irrigated, as compared with common hay on unirrigated, land.

One acre sown to alfalfa and irrigated, will produce 10,000 pounds of hay.

One acre in enclosed pasture, 500 pounds.

One acre of range averages 250 pounds. Or again:

One acre of irrigated alfalfa will feed one steer 400 days.

One acre of enclosed pasture will feed one steer 20 days.

One acre of average range will feed one steer 10 days.

Or putting it in the form of sheep, it will show as follows:

160 acres of irrigated alfalfa will maintain 1600 sheep one year.

160 acres of enclosed pasture will maintain 80 sheep one year.

And 160 acres of range will maintain 40 sheep one year.

MINN. PREPARES SCHEDULE
OF YEAR'S FOOTBALL
GAMES

Minnesota's football schedule for 1905 is practically complete. The arrangements for the Lawrence game were completed last week and the only work on the schedule remaining is the awarding of dates to the smaller colleges in the practice games. One feature of the program is that each and every game is to be played in Minneapolis.

The schedule follows:
September 23—St. Paul Central and Minneapolis Central.
September 27—Open.
October 4—Open.
October 7—North Dakota.
October 14—Ames.
October 21—Iowa.
October 28—Lawrence.
November 4—Wisconsin.
November 11—Open.
November 18—Nebraska.
November 25—Northwestern.
Open dates to be allotted to St. Thomas, Shattuck, Grinnell and Carleton.

This year Minnesota was to have played Wisconsin in Madison but Dr. H. L. Williams, coach of the team, proposed to the Badgers that the game be played in Minneapolis where a big crowd would be a certainty. The return of Phi King to Wisconsin has put new life into the football circles at Camp Randall and a notable struggle is expected when the Gophers meet King's men.

Another game around which great interest centers is that with Nebraska. The cornhuskers are getting ready for the gophers and will, this year, start a summer camp on the Platte about twenty miles from Lin-

coln. Coach Booth loses but one of his star players, Bender, and the men from the wind blown district always fight like demons against Minnesota.

Nebraska comes two weeks after Wisconsin and will be one of the biggest games of the year. Michigan has taken on Nebraska this year and as Michigan plays Wisconsin as well these two games will be used for comparative purposes between the two big teams of the west.

Northwestern comes to Northrop field this year playing the Thanks-giving game. Northwestern is due for a tremendous licking this season, but as the purple will be stronger this year than last, it will be a contract to give them their deserts.

The work in which the gophers will have to watch the corners begins Oct. 14 with the coming of Ames. Iowa has been pulling up in form in recent years, after a temporary lapse, and last season gave the gophers a lot of trouble, although the Minnesotans were "shot all to pieces" as a result of accidents. Lawrence is held safe although it will be a football game.

The schedule is well arranged, the only rub coming in the short time between Nebraska and Northwestern. The schedule is a heavy one as it calls for four hard games. Iowa, Nebraska, Northwestern and Wisconsin are all formidable opponents and if Minnesota followed the eastern rule and arranged but two stiff games for the season there would be little to fear. As it is the stiff games come within five weeks. The schedule promises a splendid football season.

THEATERS ARE BARRED, BUT
PRIESTS MAY GO TO
THE CIRCUS

Cardinal Richard, Archbishop of Paris, has again laid the hand of discipline upon his clergy. His reproof took the form of a circular letter, telling the clergy that a priest on a bicycle was no fitting spectacle for the streets of Paris. Now the Catholic clergy are shut out from the theatre. The Archbishop forbade any priest in the diocese of Paris to leave his house without wearing his cassock. Then he says that any cleric appearing in a cassock at the theatre, even at a matinee, shall be liable to suspension. The circus is allowed. It is the theatre of childhood, and the priest goes there as the guide of children. Even the opera and the Comedie Francaise are forbidden things.

The foregoing extract from the London correspondent of the New York Sun would seem to place the circus at the top of all reputable places of amusement, a place, by the way, that the Barnum & Bailey Greatest Show on Earth has exclusively occupied for many years past. It is a fact beyond dispute that the proprietor of this show has been inflexible in his rule of providing special delights for children and which are nowhere else to be seen. What pleases and in-

structs the little folks is sure to command the interest of parents and guardians. Besides that, again, the Barnum & Bailey show is the only show endorsed by the clergy. There is never an objectionable feature exhibited, nor are there any abuses to be discovered. Ladies and children are its especial care in every way.

It will exhibit under specially lighted canvas pavilions, which have foot-rests attached to every seat, the same startling program presented in Europe and which Americans are so proud of. New attractions will be seen in the ring. The show is superb. There are nearly 100 acts of all kinds, among them six stupendous sensational surprises, each a death-defying feat, three herds of elephants are in three rings at one time, while as many as a dozen acts are going on simultaneously. There are three rings, three stages, a race track, an aerial enclave and a vaudeville entertainment in the menagerie pavilion, where there are also scores of special performers in characteristic exhibitions. There are also two menageries, all the champion riders of the world, the best acrobats, aerialists, tumblers, leapers, etc. All of it will be here undivided on July 5.

INCENDIARIES HAVE MANY
DEVICES TO BURN THEIR
OWN BUILDINGS

Information has been received by officials of the state insurance department that incendiaryism in Wisconsin and the United States generally has become a science. The officials have ascertained that certain intricately contrived devices are used by those who burn their buildings in order to secure the face value of their policies.

One of these devices consists of a parallelogram box, with air holes in top and sides. The box is filled with waste, and there is a bottle containing phosphorus dissolved in carbon sulphide. When the buildings is marked for destruction the cork of the bottle is loosened and the box is thrown into the building.

The chemicals leak slowly out of the bottle onto the waste, and when the sulphide is evaporated the phosphorus bursts into a blaze. The time within which the blaze will start can be regulated by loosening or tightening the bottle, so that the person wishing to set fire to his building can have as much time as he wishes to get away so as to establish an alibi.

A more simple device consists of a bladder filled with gasoline. In the neck of the bladder a long fuse is inserted, and a candle is attached to the end of the fuse. The distance from the bottom of the candle to the tip regulates the time within which

the fire will reach the fuse and ultimately the gasoline. It is said that this device can be arranged so as to cause an explosion in five minutes to two hours.

These and others interesting facts are brought out in a report of the fire marshal of Ohio. The fire marshal also reports that smokers of tobacco cost the state \$122,000 last year, the result of fires caused by lighted matches and cigars. Many fires were caused by rats and mice. Regarding the rats as a cause of fire, the Ohio fire marshal says:

"Rats cause many fires and the majority of them go to swell the always embarrassing figure to the fire marshal, the footing of fires reported 'origin unknown.'"

"The upper and lower parts of the teeth with which a rat gnaws have a facing of enamel which will cut ivory. The back part of these teeth is soft so that it wears away like a chisel-like edge. Rats are fond of phosphorus because it is sweet and stimulating."

Relying on the experience of the fire marshals of Ohio and other states, the Minnesota officials believe that the new law will bring about a material saving in the amount of property consumed by fires. Of sixty-six persons arrested at the instance of the Ohio marshal fifty-four were indicted. Twenty-six were convicted, only two were acquitted and in twenty-eight instances the cases are still pending.

State News
Condensed

Green Bay—Cornelius Van Boxel, 75 years of age, an inmate of the almshouse, is a prisoner because of an alleged murderous assault on Augustus Korth, another inmate, nearly 90 years old.

Ashland—Joseph Denomie, an Indian, murdered a year ago, left an estate of \$10,000 in pine lands. The will was approved by President Roosevelt.

Eau Claire—Judge Sanborn has sentenced Harry Johnson to five years at Fort Leavenworth for robbing the postoffice at Cable of \$18.49.

Independence—Martin Olson, while trying to get on a freight train, was run over and instantly killed. He was about 27 years of age.

Manitowoc—Over 400 delegates were in attendance at the annual convention of the Evangelical Lutheran synod of Wisconsin.

Green Bay—The 14-month-old son of Mr. and Mrs. George Hammen took a drink of kerosene and is dead.

Endeavor—The annual reunion of the soldiers of Adams, Marquette, and Waushara counties was held at Endeavor on Tuesday, Wednesday and Thursday.

Ellsworth—The corner stone of Pierce county's new \$80,000 courthouse in Ellsworth was laid with impressive ceremony by the grand lodge F. and A. M. of Wisconsin, Deputy Grand Master E. J. Farr of Eau Claire officiating as grand master.

Sheboygan—For the first time in their history the big Sheboygan wood-working establishments will close down at noon on Saturdays for the balance of the summer. The new rule was decided on at meeting of the Sheboygan Manufacturers' association, a result of a discussion on the betterment of the working class at the Contemporary club.

Madison—Attorney Rufus B. Smith of Madison has been commissioned to hear the testimony in the proceedings against District Attorney John A. Kittell of Green Bay on Thursday of next week. The hearing is the result of the application of Special District Attorney Sol Huntington for the dismissal of Mr. Kittell on the ground of alleged antagonism to the prosecution of the graft cases.

WAUSAUKEE—Town chairman R. L. Thomas of Wausaukee has vetoed the application of four saloonkeepers for a license there next year. Mr. Thomas says there are too many saloons there and that in refusing to grant these licenses he is carrying out a pledge made to the people at the time of his election. Since he was elected slot machines have been abolished and the saloons are closed on Sunday.

Case of Total
Depravity

Bloomington, Ill., June 23.—Nanny Piper, a pretty little girl of 10, a foundling from the Milwaukee home for dependent children, was sentenced by Judge Russell, of the county court, to the girl's institution at Geneva. Complaint was made by her foster parents, Mr. and Mrs. Zearfuss, of Randolph township, who adopted her July 14, 1903. After nearly two years of care the parents were forced to ask for relief.

They told the court that the child had on several occasions attempted to poison them by placing carbolic acid in the food they ate and that she had fed the chickens corn saturated with kerosene. The girl admitted on the stand that she had tried to poison the couple, but said that she could not explain why she did so, that she loved them dearly and that they had treated her kindly.
